Cool Awnings // Specialists in shade and weather protection solutions for both residential and commercial sectors.

## SUPERIOR QUALITY MATERIALS

- // Cool Awnings select only the best quality fabrics and hardware
- // Custom Made solutions to suit each unique situation
- // Free Measure and Quote service – take advantage of our team's wealth of experience and knowledge on-site to discuss the best solution
- // Designed and installed by our qualified and experienced team
- // 5 year warranty on hardware and fabric

## OUR RANGE INCLUDES:

- // Lateral Arm Awnings
- // Drop Curtains
- // Fixed Frame Awnings
- // Shade Sails

## SWINGLINE RETRACTABLE AWNING

- // Economical option designed to provide maximum shade over outdoor areas whilst providing full headroom
- // European componentry
- // Maximum extension 3 metres
- // Operable via hand crank or remote control
- // 5 year warranty

## TOPLINE RETRACTABLE AWNING

- // Premium awning system
- // European componentry
- // Maximum extension 4 metres
- // 7 year warranty

## TOPLINE CASSETTE AWNING

- The addition of an attractive aluminium cassette protects the fabric as well as the jointed arms when the awning is retracted. The slim elegant design gives your Topline awning the finishing touch.
- // 7 year warranty

## DROP CURTAINS

Cool Awnings can custom make drop curtains to suit your requirements.

- // Hand and Crank rolled options
- // Can be 5.5m wide with a 3.5m drop
- // Manufactured from 0.75mm fire retardant clearglass PVC with a coloured PVC border for strength, or top quality PVC mesh.
- // Stainless steel componentry
- // 6 different styles available including
  - Hand rolled
  - Crank rolled
  - Chameleon channel sides
  - Wire guide
  - Zips and guides
  - Zip trak

## CHAMELEON DROP CURTAINS

Channelled blind, with aluminium side channels either 75 or 100mm wide, crank or motorised control options

- // Can be 5.5m wide with a 3.5m drop.
- // Manufactured from 0.75mm fire retardant clearglass PVC with a coloured PVC border for strength, or top quality PVC mesh.
- // Stainless steel componentry.
- // 5 year warranty.

## ZIP TRAK DROP CURTAINS

- // Spring loaded curtains which have a rope on each side which runs down an aluminium channel.
- // Bottom bar keeps fabric flat and secures into locks at base of side channels.
- // No ground fixings are required
- // Aluminium channels can be powder coated to match curtain or joinery.
- // 3.5m maximum width and 3m drop.
- // 5 year warranty.

## FIXED FRAME AWNINGS

Custom made fixed frame awnings are constructed from extruded aluminium covered with a waterproof fabric and sealed to the building.

- // A wide range of shapes and styles to choose from.
- // The Wedge is the most popular style and can be constructed with a flat panel at the front for signage.
- // Vertical Hoop and Spanish Hoop are other popular styles.
- // 5 year warranty

## TENSION CANOPY

Custom made tension canopies are manufactured from powder coated galvanised steel or aluminium and covered with waterproof PVC or polyester canvas.

- // Designed and built by our inhouse engineer.
- // Able to deal with wide range of weather conditions.
- // Frame can be powder coated to match your fabric.
- // Custom made brackets, flashings and gutters complete the installation.
- // A large range of shapes to suit the situation.
- // 5 year warranty

## PERGOLINE / XLINE

The PERGOLINE is a fabric patio roofing and shading option that needs no under construction thanks to two mounting posts in the front. The Xline awning is designed to be mounted to an existing structure including conservatories and pergolas. They are pleasing to the eye and can be retrofitted easily. Both are CE tested. High-quality and corrosion resistant materials and coatings make for a durable product (5 year warranty) that lets you enjoy every ray of sunlight. Manufactured in Europe, please allow up to 12 weeks for delivery.

### PERGOLINE DIMENSION LIMITS

Single system: 4 x 7 m x 3 m height (posts)

Multiple system: 8 x 7 m x 3 m height (posts)

If the maximum dimensions of PERGOLINE are not big enough for you, then simply order your PERGOLINE as a multiple system and put up any number of systems next to each other.

### XLINE DIMENSION LIMITS

Single system:

6 x 7 m (depends on the choice of cloth)

Coupled systems: 8 x 6 m

The advantage of a coupled system is that you only need one motor for each set of two systems.

## SHADE SAILS-SHADE

We offer customised shade solutions using waterproof and mesh fabrics.

Our shade sail mesh range provide at least 80% protection from harmful UV rays. Quality stainless steel fittings and componentry.

// 5 year warranty.

## SHADE SAILS WATERPROOF

Waterproof shades are an excellent option where an area of rain protection is required and there is adequate fall and space for poles to be installed.

// 5 year warranty.

## SHADE STRUCTURES

For large areas such as children's playgrounds a combination of sails can be combined to create protection from harmful UV.

Shade structures are a free standing frame covered with shade mesh fabric.

// 5 year warranty.

## DIGITAL SIGNAGE

Turn your awning into eye catching signage that brings customers in your door. We can digitally print your logo or any design onto PVC and install it on your awning. Back lighting is also available to make your design glow in the dark.

## SOMFY MOTORISATION

For the ultimate in innovation, Somfy's intelligent controls can operate your blinds, curtains, awnings or roller shutters without you having to lift a finger:

2.30 V motor

radio controlled motor

You can quickly and simply make your home more comfortable and secure whilst at the same time reducing energy consumption and your home's carbon footprint.

# somfy®

Cool Awnings recommend Somfy's quality motorisation solutions.

We recommend the use of Somfy wind sensors, which will ensure that your awning is automatically retracted in the event of high winds.

## FABRIC

We recommend and source quality fabrics that are mould resistant and offer a 5 year warranty.

**MAIN STREET™** Plus acrylic coated polyester is ideal for awnings and canopies because it won't stretch or leak. This versatile fabric features a smooth surface for good looks and resistance to dirt build-up and offers superior strength and resistance to water, mildew, ultraviolet rays and abrasion. Mainstreet is suitable for many applications, indoors and out.

**PATIO 500** PVC fabric has exceptional resistance to mildew and UV rays making this waterproof fabric the perfect choice for fixed awnings, canopies and commercial installations in sunny, high humidity areas. Made with wick

and craze resistant polyester weft-inserted warp knit scrim, Patio 500 has a matte, linen-like finish that combines long-lasting good looks with exceptional dimensional stability and superior strength.

**ACRYLIC CANVAS** is a proven solution designed to keep looking good for years, and our range represents the very best available world-wide.

Great for both domestic and commercial use, our acrylic canvas range is both durable and versatile.

Acrylic canvas is a proven and rugged performer with an extensive and bold colour range, woven using the very latest in European technology, and available in both bold and subtle contemporary patterns and colours.

Member of OFPANZ

*"When we needed an awning for our new home we approached Cool Awnings having been satisfied customers from at least 10 years ago.*

*We were delighted to find the same high level of service, quality of product, competitive prices and extensive range of fabric.*

*Amazingly, there was no extra charge for measurement and installation on Waiheke.*

*We are very pleased with the result."*

*Liz & George Welch, Waiheke Island*

*"Excellent customer service and professional job, good communication, attention to detail and followup.*

*Very friendly and obliging team. We are very happy with result and recommend this business."*

*Tracey St Clair, Auckland*
