

Outdoor Fabric Products Association of New Zealand

FABRIC CARE LABEL 6[®]

These instructions will maintain the appearance and extend the functional life of the fabric

- Unsupported PVC Clear and Opaque (tent windows, drop curtains)

PROHIBITIONS/WARNINGS

- Do not dryclean
- Do not iron
- Do not use a stiff brush, vigorous rubbing or tumble drying
- Do not use abrasive cleaners
- Keep away from solvents such as petrol, acetone or similar which may attack PVC

GENERAL CARE INSTRUCTIONS

Vacuum regularly using low suction to remove loose dirt.

Clean regularly with hot or warm soapy water and a soft brush, or lightly sponge down with warm water.

Allow to dry thoroughly before storage or re-use.

SPOT CLEANING/SPECIAL TREATMENTS

Treat stains as soon as possible. Test on an inconspicuous area first before proceeding. Mildew may be removed by wiping with a cold solution of sodium hypochlorite having 4% chlorine, in the proportion of 1 part to 4 of water. Rinse thoroughly with cold water. Grease spots may be removed carefully by rubbing lightly with a soft cloth and some ethanol (ethyl alcohol). Scuffs and/or scratches can be removed by polishing with a special compound recommended by the manufacturer.
