

Simple WEDGE

WEDGE with Message Panel

FIXED FRAME AWNINGS

The wedge is our most popular fixed frame awning. It is custom made to a very high standard and is designed to deal with a wide range of weather conditions.

The Wedge is attached permanently to your building and poles are not normally required. The design can also be constructed with an optional flat message panel at the front for signage.

- » Cool Awnings custom - make fixed frame awnings to fit your home or business.
- » Fixed frame awnings are made from extruded aluminium welded and covered with waterproof PVC fabric.
- » We have a large range of aluminium shapes available depending on the size of the awning. The Wedge, Spanish Hoop and Vertical Hoop are the most popular styles.
- » Optional powdercoating to match fabric.
- » We recommend the use of PVC fabric as it is waterproof and doesn't stretch.
- » Fabric is tensioned over the frame and stapled into place with matching cover strip to hide the staple lines.
- » Our awnings are installed by our experienced awning installation team.
- » Large fixed frame awnings can be braced into the building or stabilized with poles to the ground and the aluminium can be powder coated to match your fabric.
- » All our awnings come with a 5 year guarantee on fabric and hardware.

Interest free and no repayments for 6 months.
