BEST VALUE in town

FAST RESPONSE

10 Years warranty*

With all the style of glass, but at a fraction of the cost, TRANSROOF™, an aluminium frame and polycarbonate roof canopy solution from CANOPY TECH is the natural choice for homeowners who value great style, superior safety and value for money.

TRANSROOF™, are built to stand the test of time. High quality powder coated Aluminium extrusions are used for the frame. Market leading flat Polycarbonate sheet provides a light weight, low maintenance, UV resistant roof with a high degree of light transparency. Automotive grade EPDM rubber seals and stainless steel fasteners provide long lasting structural integrity. Styles available in Flat, Gable, and Arch.

Create extra space you can enjoy all year around. TRANSROOF™, made to measure to suit your requirements. Contact us today to measure and configure your outdoor living area.
