Cool Awnings

MODULBOX

Pioneers in awnings.
A quality awning is the perfect complement to a terrace or deck area.

FULL CASSETTE DESIGN Llaza Modulbox Full Box

This model features a full cassette box which provides protection for the awning fabric and arms when closed, with a streamlined profile. Recessed brackets enable a close fit to the building for a clean, integrated look on any home.

Design

Compact and modern, available in white and anthracite to suit any home exterior.

Build Quality

Designed and manufactured in Spain, with componentry made fully in-house by Llaza to control every step of quality.

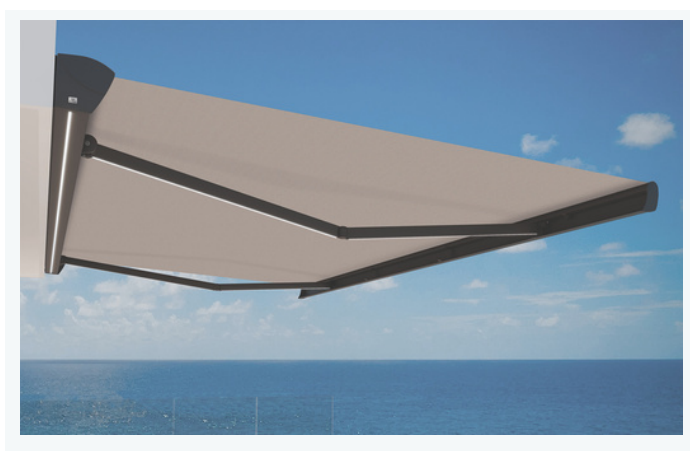

Durability

All components are aluminium, alleviating rust, extending longevity and remaining environmentally friendly.

Awning Arm Design

Llaza awnings are designed and manufactured in Spain. Componentry is made fully in-house by Llaza so they can control every step of the quality. Different configurations within the same model adapt it to the needs of each installation.

- Sleek belt design with plastic-coated stainless steel wires for added strength. This design stops scratching and removal of paint that chain and cable systems can often cause.
- Under normal use, the arms will exceed 60,000 operational cycles.

Compact & Modern

Available in white and anthracite for a clean, contemporary finish.

Aluminium Build

All components are aluminium, which alleviates rust, improves longevity, and is environmentally friendly.

Fabric Choice

Selecting the right fabric for your awning is key. Our Acrylic Canvas range offers an impressive selection of plain and textured colours, backed by a 5-year warranty. Designed and manufactured in Europe, it is a 100% solution-dyed acrylic canvas with a double-sided fluorocarbon finish, woven using the Infinity Process to maximise tear and tensile strength — keeping your awning water-resistant, dimensionally stable, and beautiful for years to come.
